

ANTHONY SAYS

I am the owner of a hybrid training gym and a professional obstacle course racer, and between all of the racing, training and coaching I developed injuries such as stress fractures, tendinitis and chronic lower leg pain. I had a hard time getting my body to achieve peak performance and sometimes getting through the day at work. For years I came close to hitting my personal goals in the sport but was missing something that could help support my aspirations to be at an Elite level.

This all changed when Dr. Alan Bass, DPM fit me with a pair of **Powerstep Light Orthotics** that helped correct biomechanical issues and allowed me to push my body to new heights, go through a work day pain-free and let me be the best version of myself. I can't believe what a difference the orthotics have made in my work and daily life.

This season I have podium-ed three times in three different races and finished a major endurance event. I am excited to see what else I can accomplish, and with Powerstep behind me I expect big things.

“PROTECH LIGHT ORTHOTICS... ALLOWED ME TO PUSH MY BODY TO NEW HEIGHTS, GO THROUGH A WORK DAY PAIN FREE AND LET ME BE THE BEST VERSION OF MYSELF.”
